Ducati St2 Engine

The Ducati ST series is a set of Italian sport touring motorcycles manufactured by Ducati from 1997 through 2007. In order of release, the series comprised five distinct models: the ST2, ST4, ST4S, ST3, and ST3S. Intended to compete with other sport-tourers such as the Honda VFR, the ST Ducatis had a full fairing, a large dual seat and a relaxed riding position for both rider and pillion.

Ducati ST series - Wikipedia

The Ducati 998, a successor to the Ducati 996 and the final variation on the Ducati 916, was produced in various models from 2002 to 2004. The new Testastretta engine shared many similarities with the previous Desmoquattro engine in the 996, although it was completely new from the crankshaft up. Testastretta means narrow head and refers to a complete redesign of the cylinder heads.

DUCABIKE Ducati parts - Made in Italy.

Agreed - on my second and can confirm they do well as actual “Crash” Helmets. The new models better riding with the flip up apparently. Check out the new carbon agv flip front for a similar price, I have a gt Veloce (or something like that) from a few years ago and that’s pretty good as well, superlight butvthe field of vision doesn’t suit the multi mirrors as much as the shoei.
