Food safety is used as a scientific discipline describing handle, preparation, and storage of food in ways that prevent food-borne illness. The occurrence of two or more cases of a similar illnesses resulting from the ingestion of a common food is known as a food-borne disease outbreak. This includes a number of routines that should be followed to avoid potential health hazards.

Food safety - Wikipedia

Citrus bergamia, the bergamot orange (pronounced / ' b 3: r g ə , m ɒ t /), is a fragrant citrus fruit the size of an orange, with a yellow or green color similar to a lime, depending on ripeness.. Genetic research into the ancestral origins of extant citrus cultivars found bergamot orange to be a probable hybrid of lemon and bitter orange. Extracts have been used to scent food, perfumes ...
